# Free Tutoring at The Learning Center

## What can tutors do for you?

- **A tutor explains:** Math and science subjects may be very challenging. The tutor can explain difficult concepts, principal and strategies, and will help you learn successfully.
- **A tutor encourages:** Sometimes students do not know why they are struggling with math or sciences. The tutor can help with ideas for successful learning.
- **A tutor works with the class program:** A tutor helps students to understand and do the assignments in a timely manner.
- **A tutor monitors the learning process:** A tutor asks and/or answers questions to check if students are mastering the material. A tutor helps with the location and organization of learning materials.
- **A tutor supports time management:** A tutor helps students to plan the learning process and works with students to achieve academic goals.
- **A tutor encourages self-discipline and self-directed learning:** A tutor can assist with time-management and study-skills.
- **A tutor supports cooperative learning:** A tutor guides students to work together towards common learning goals.

- Math and science tutor will relieve a lot of unnecessary stress before exams with effective test-taking strategies.

## Study Groups
